

IXIASOFT 825 Querbés Ave. - Suite 200 Montréal (Québec) Canada H2V 3X1 IXIASOFT is the creator of TEXTML Server, the first XML Content Server for OEMs and developers of XML applications.

TEXTML is the underlying technology that enables unrivalled performance for a wide variety of applications with large volumes of documents such as patient health records management, company knowledge bases, government public records or WAP content. Every feature of our technology was created with XML in mind. The net impact is easier and faster access to information. [NEWLOG is IXIASOFT's partner](#) since April 2002 and sales in Italy
